

Streamlined credit analysis and KYC Process with the support of a collaborative cloud platform leads to higher client satisfaction

Product Overview

The Choice to Combat Increasing KYC Problems

According to a recent survey*, 89% of corporate customers have not had a good KYC experience, and 13 percent have changed their financial institution relationship as a result. Increasing cost and complexity of KYC is clearly having a negative impact on funding institutions. Our UnisonSM solution is the answer to the complicated KYC problems
